PEPTIDES

VOLUME 5 NUMBER 1 JANUARY/FEBRUARY 1984

CONTENTS

Effects of CCK-8 in the nucleus accumbens.
DEFRANCE, J. F., R. W. SIKES and R. B. CHRONISTER 1

Cyclo(Leu-Gly) has opposite effects on D-2 dopamine receptors in different brain areas.
LEE, J. M., R. F. RITZMANN and J. Z. FIELDS 7

Cholecystokinin receptor binding levels in the genetically obese rat brain.
FINKELSTEIN, J. A., A. W. STEGGLES, P. A. MARTINEZ and M. PRAISSMAN 11

β-Endorphin like immunoreactivity of brain, pituitary gland and plasma of rats submitted to postnatal protein malnutrition: Effect of behavioral training.
PERRY, M. L. S., M. A. CARRASCO, R. D. DIAS and I. IZQUIERDO 15

Pulmonary vasoactivity of lung endocrine cell-related peptides.
GILLESPIE, M. N., C. N. REINSEL and B. D. BOWDY 21

The involvement of arginine vasotocin in the maturation of the kitten brain.
GOLDSTEIN, R. 25

Somatostatin, prostaglandin E_2 and atropine inhibition of the gastric actions of bombesin in the dog.
HIRSCHOWITZ, B. I. and E. MOLINA 29

Analysis of food stimulation of gastrin release in dogs by a panel of inhibitors.
HIRSCHOWITZ, B. I. and E. MOLINA 35

The role of some central catecholamine systems in cholecystokinin-induced satiety.
WILLIS, G. L., J. HANSKY and G. C. SMITH 41

Angiotensin II mediates β endorphin like immunoreactivity release in rat pituitary cell culture.
SOBEL, D. O. 47

Chronic dihydroergotoxine administration sets on receptors for enkephalin and thyrotropin releasing hormone in the aged-rat brain.
OGAWA, N., S. MIZUNO, A. MORI and H. KURODA 53

Antipyretic effect of centrally administered CRF.
BERNARDINI, G. L., D. B. RICHARDS and J. M. LIPTON 57

Secretion of neurophysins by the ovary in sheep.
WATKINS, W. B., L. G. MOORE, A. P. F. FLINT and E. L. SHELDRICK . 61

Effect of naloxone on pancreatic and gastric endocrine function in response to carbohydrate and fat-rich test meals.
SCHUSDZIARRA, V., A. HOLLAND, V. MAIER and E. F. PFEIFFER 65

Contents continued

In vitro, release of cholecystokinin from hypothalamus and frontal cortex of Sprague-Dawley, Zucker lean (Fa/-) and obese (fa/fa) rats.
MICEVYCH, P. E., V. L. W. GO, T. L. YAKSH and J. FINKELSTEIN 73

Evidence for a central neuropeptidergic control of rumination in sheep.
HONDE, C. and L. BUENO 81

Modulation of isolation-induced fighting by N- and C-terminal analogs of substance P: Evidence for multiple recognition sites.
HALL, M. E. and J. M. STEWART 85

Muramyl dipeptide does not induce slow-wave sleep or fever in rats.
FORNAL, C., R. MARKUS and M. RADULOVACKI 91

Cholecystokinin-induced hypophagia is not potentiated by cancer anorexia.
VAN LAMMEREN, F. M., W. T. CHANCE and J. E. FISCHER 97

The development of peptide-containing neurons within neocortical transplants in adult mice.
EBNER, F. F., J. A. OLSCHOWKA and D. M. JACOBOWITZ 103

Pituitary opioid involvement in ECS-postictal electrogenesis and behavioral depression in rats.
TORTELLA, F. C., A. COWAN and J. W. HOLADAY 115

Testicular GnRH receptors: Photoaffinity labeling and fluorescence distribution studies.
HAZUM, E. and D. KEINAN 119

BRIEF COMMUNICATIONS

Is neurotensin in the brain involved in thermoregulation of the monkey?
MORA, F., T. F. LEE and R. D. MYERS 125

Nonopiate effects of α-neo-endorphin on mouse behavior using multi-dimensional behavioral analyses.
UKAI, M. and T. KAMEYAMA 129

Distribution and characterization of cyclo (His-Pro)-like immunoreactivity in anuran (frog) skins.
PRASAD, C., R. M. EDWARDS, J. PEGUES, M. MORI, J. F. WILBER, R. A. THOMAS and W. PIERSON 133

ANNOUNCEMENTS 137

PEPTIDES

VOLUME 5 NUMBER 2 MARCH/APRIL 1984

CONTENTS

Preface 141

General Reviews

Vasoactive intestinal polypeptide (VIP): Current status.
SAID, S. I. 143

PHI—A new brain-gut peptide.
TATEMOTO, K. 151

Chemistry, Synthesis, Biosynthesis

Production of VIP- and PHM (human PHI)-related peptides in human neuroblastoma cells.
HOSHINO, M., C. YANAIHARA, K. OGINO, K. IGUCHI, H. SATO, T. SUZUKI and N. YANAIHARA 155

Studies toward the biosynthesis of vasoactive intestinal peptide (VIP).
GOZES, I., M. BODNER, H. SHWARTZ, Y. SHANI and M. FRIDKIN 161

Synthesis of vasoactive intestinal peptide (VIP) via the mixed anhydride method.
SCHAAPER, W. M. M. and H. C. BEYERMAN 167

Synthesis, conformational studies and biological activities of VIP and related fragments.
FOURNIER, A., J. K. SAUNDERS and S. ST-PIERRE 169

Purification of monoiodinated vasointestinal peptide ($M^{125}I$-VIP) by high pressure liquid chromatography (HPLC).
MARIE, J. C., C. BOISSARD and G. ROSSELIN 179

Isolation and characterization of rat vasoactive intestinal peptide.
DIMALINE, R., J. R. REEVE, JR., J. E. SHIVELY and D. HAWKE 183

Analogues and fragments of secretin.
KÖNIG, W., M. BICKEL, K. KARCH, V. TEETZ and R. UHMANN 189

Embryologic Development, Morphologic Aspects and Distribution

Development of VIP in the peripheral nervous system of avian embryo.
FONTAINE-PERUS, J. 195

The distribution and origin of VIP in the spinal cord of six mammalian species.
GIBSON, S. J., J. M. POLAK, P. ANAND, M. A. BLANK, J. F. B. MORRISON, J. S. KELLY and S. R. BLOOM 201

Distribution and origins of VIP-immunoreactive nerves in the cephalic circulation of the cat.
GIBBINS, I. L., J. E. BRAYDEN and J. A. BEVAN 209

Morphological and functional correlates of VIP neurons in cerebral cortex.
MAGISTRETTI, P. J., J. H. MORRISON, W. J. SHOEMAKER and F. E. BLOOM 213

Contents continued

The origin of VIP-containing nerves in the urinary bladder of rat.
GU, J., J. M. POLAK, M. A. BLANK, G. TERENGHI, J. F. B. MORRISON and S. R. BLOOM 219

Localisation and measurement of VIP in the genitourinary system of man and animals.
POLAK, J. M. and S. R. BLOOM 225

VIP-innervation of rat intestine: A developmental study with monoclonal antibodies.
SIKORA, L. K. J., A. M. J. BUCHAN, J. G. LEVY, C. H. S. MCINTOSH and J. C. BROWN 231

VIP-immunoreactivity in the skin of various mammals: Immunohistochemical, radioimmunological and experimental evidence for a dual localization in cutaneous nerves and Merkel cells.
HARTSCHUH, W., M. REINECKE, E. WEIHE and N. YANAIHARA 239

Immunochemical study on PHI/PHM with use of synthetic peptides.
YANAIHARA, N., C. YANAIHARA, K. NOKIHARA, K. IGUCHI, S. FUKATA, M. TANAKA, Y. YAMAMOTO and T. MOCHIZUKI 247

The distributions of PHI and VIP in porcine gut and their co-localisation to a proportion of intrinsic ganglion cells.
BISHOP, A. E., J. M. POLAK, Y. YIANGOU, N. D. CHRISTOFIDES and S. R. BLOOM 255

Studies on the distribution of PHI in mammals.
CHRISTOFIDES, N. D., J. M. POLAK and S. R. BLOOM 261

Biological Effects

The effect of VIP on guinea pig taenia coli requires the whole sequence.
PIPKORN, R. and R. HÅKANSON 267

Effect of somatostatin infusion on VIP-induced transport changes in the human jejunum.
KREJS, G. J. 271

VIP inhibits histamine-induced ultrastructural changes related to acid secretion by parietal cells.
ANTEUNIS, A., C. GESPACH, A. ASTESANO, S. EMAMI, R. ROBINEAUX and G. ROSSELIN 277

Potentiation of cholecystokinin-induced exocrine secretion by either electrical stimulation of the vagus nerve or exogenous VIP in the guinea pig pancreas.
MATSUMOTO, T. and T. KANNO 285

Angiotensin II and norepinephrine antagonize the secretory effect of VIP in rat ileum and colon.
BHASKAR RAO, M., T. M. O'DORISIO, S. CATALAND, J. M. GEORGE and T. S. GAGINELLA 291

The effects of VIP on cyclic AMP and glycogen levels in vertebrate retina.
SCHORDERET, M., P. HOF and P. J. MAGISTRETTI 295

Action of vasoactive intestinal peptide (VIP) on amphibian adrenocortical function, *in vitro*.
LEBOULENGER, F., I. PERROTEAU, P. NETCHITAILO, I. LIHRMANN, P. LEROUX, C. DELARUE, D. H. COY and H. VAUDRY 299

Influences of VIP on thyroid hormone secretion.
AHRÉN, B. 305

Acute stimulation of ganglionic tyrosine hydroxylase activity by secretin, VIP and PHI.
IP, N. Y., C. BALDWIN and R. E. ZIGMOND 309

Effect of vasoactive intestinal peptide on serotonin release in the suprachiasmatic area of the rat. Modulation by oestradiol.
HERY, M., M. FAUDON and F. HERY 313

Circulatory effects of VIP in anesthetized man.
THULIN, L., B. NYBERG, G. TYDEN and T. SONNENFELD 319

VIP elevates platelet cyclic AMP (cAMP) levels and inhibits *in vitro* platelet activation induced by platelet-activating factor (PAF).
COX, C. P., J. LINDEN and S. I. SAID 325

Distribution and dilatory effect of vasoactive intestinal polypeptide (VIP) in human cerebral arteries.
EDVINSSON, L. and R. EKMAN 329

Stimulatory effects of Gila monster venom on rat pancreatic acini.
DEHAYE, J. P., J. WINAND, C. DAMIEN, P. POLOCZEK, M. SVOBODA and J. CHRISTOPHE 333

Receptors

In vitro autoradiographic localization of vasoactive intestinal peptide (VIP) binding sites in the rat central nervous system.
BESSON, J., M. DUSSAILLANT, J.-C. MARIE, W. ROSTENE and G. ROSSELIN 339

Heart receptors for VIP, PHI and secretin are able to activate adenylate cyclase and to mediate inotropic and chronotropic effects. Species variations and physiopathology.
CHRISTOPHE, J., M. WAELBROECK, P. CHATELAIN and P. ROBBERECHT 341

Specific decrease of secretin/VIP-stimulated adenylate cyclase in the heart from the Lyon strain of hypertensive rats.
ROBBERECHT, P., L. GILLET, P. CHATELAIN, P. DE NEEF, J. C. CAMUS, M. VINCENT, J. SASSARD and J. CHRISTOPHE 355

Phosphorylation of 3 particulate proteins in rat pancreatic acini in response to vasoactive intestinal peptide (VIP), secretin and cholecystokinin (CCK-8).
VANDERMEERS, A., M. C. VANDERMEERS-PIRET, J. RATHE, J. P. DEHAYE, J. WINAND and J. CHRISTOPHE 359

VIP receptors in pig liver cells: Binding characteristics and role in degradation.
GAMMELTOFT, S., P. STAUN-OLSEN, B. OTTESEN and J. FAHRENKRUG 367

Activation of cyclic AMP-dependent protein kinase by VIP in blood mononuclear cells.
GUERRERO, J. M., J. C. PRIETO, J. R. CALVO and R. GOBERNA 371

Chronic atropine treatment causes increase in VIP receptors in rat cerebral cortex.
ABENS, J., A. WESTLIND and T. BARTFAI 375

Release and Functional Role

Adrenergic versus VIPergic control of cyclic AMP in human colonic crypts.
BOIGE, N., A. MUNCK and M. LABURTHE 379

Contents continued

Evidence that vasoactive intestinal polypeptide is a dilator transmitter to some cerebral and extracerebral cranial arteries.
BEVAN, J. A., M. MOSCOWITZ, S. I. SAID and G. BUGA 385

Role of vasoactive intestinal polypeptide (VIP) in regulating the pituitary function in man.
KATO, Y., A. SHIMATSU, N. MATSUSHITA, H. OHTA and H. IMURA 389

Prostaglandin D_2 stimulates vasoactive intestinal polypeptide release into rat hypophysial portal blood.
SHIMATSU, A., Y. KATO, N. MATSUSHITA, H. OHTA, Y. KABAYAMA, N. YANAIHARA and H. IMURA 395

Release of VIP-like immunoreactivity in response to dopamine agonists, insulin hypoglycemia and feeding in conscious dogs.
UVNÄS-MOBERG, K., M. GOINY, L.-E. BLOMQUIST and C.-E. ELWIN ... 399

Influence of caloric intake on gastric inhibitory polypeptide, VIP and gastrin release in man.
BECK, B., C. VILLAUME, J. A. CHAYVIALLE, P. GARIOT, M. ULMER, A. DESALME and G. DEBRY 403

Interaction of Gila monster venom with secretin receptors in rat pancreatic membranes.
GILLET, L., P. ROBBERECHT, M. WAELBROECK, J. C. CAMUS, P. DE NEEF, W. KÖNIG and J. CHRISTOPHE 407

Studies in Human Disease and Experimental Models of Disease

Abundance of VIP in duodenal mucosa of coeliacs and duodenal ulcer patients.
DOMSCHKE, S., S. R. BLOOM, T. E. ADRIAN, G. LUX, M. G. BRYANT and W. DOMSCHKE 411

The WDHA syndrome: Clinical and laboratory data on 28 Japanese cases.
YAMAGUCHI, K., K. ABE, K. OTSUBO, C. HANIUDA, M. SUZUKI, A. SHIMADA, S. KIMURA, I. ADACHI, T. KAMEYA and N. YANAIHARA . 415

Electrophysiological studies on the cultured cells obtained from transplantable pancreatic carcinoma in Syrian golden hamsters.
UEDA, N., Y. SUZUKI, M. UTSUMI, T. OBARA, K. OKAMURA and M. NAMIKI 423

Vasoactive intestinal peptide in cerebrospinal fluid.
SHARPLESS, N. S., L. J. THAL, M. J. PERLOW, K. TABADDOR, J. M. WALTZ, K. N. SHAPIRO, I. M. AMIN, J. ENGEL, JR. and P. H. CRANDALL 429

VIP in cerebrospinal fluid of patients with multiple sclerosis.
ANDERSEN, O., J. FAHRENKRUG, C. WIKKELSØ and B. B. JOHANSSON 435

Vasoactive intestinal peptide as a bronchodilator in asthmatic subjects.
MORICE, A. H., R. J. UNWIN and P. S. SEVER 439

Renal function during vasoactive intestinal peptide (VIP) infusions in normal man and patients with liver disease.
CALAM, J., R. J. UNWIN, J. SINGH, S. DORUDI and W. S. PEART 441

Long-term pancreatic duct occlusion impairs the entero-insular axis in the dog—failure of plasma VIP to respond as "incretin."
SCHWILLE, P. O., W. ENGELHARDT, E. GUMBERT, C. GEBHARDT and F. P. GALL 445

VIPergic innervation of diabetic pancreas in rats.
KISHIMOTO, S., S. SHIMIZU, A. KAMBARA, K. OKAMOTO, H. KOH, M. YAMAMOTO, T. TAMARU, G. KAJIYAMA, A. MIYOSHI and N. YANAIHARA 451

ANNOUNCEMENTS 459

PEPTIDES

VOLUME 5 NUMBER 3 MAY/JUNE 1984

CONTENTS

Derivatives of β-casomorphins with high analgesic potency.
MATTHIES, H., H. STARK, B. HARTRODT, H.-L. RUETHRICH, H.-T. SPIELER, A. BARTH and K. NEUBERT 463

Effects of luteinizing hormone-releasing hormone on gonadotrophins in the hamster.
GREGERSON, K. A. and G. T. CAMPBELL 471

Alteration of shock titration thresholds in the cat following intrathecal substance P administration.
WOLF, D. L. and J. S. MOHRLAND 477

Inhibition of satiety by a cholecystokinin antagonist is independent of gastric emptying.
COLLINS, S. M. and H. P. WEINGARTEN 481

Effects of bPTH fragments (1–34), (3–34) and (7–34) on uterine contraction.
SHEW, R. L. and P. K. T. PANG 485

Synthesis and biological activity of [L-3,4-dehydroproline^3]-tuftsin.
AMOSCATO, A. A., G. F. BABCOCK and K. NISHIOKA 489

Modification of the hypothermic circadian cycles induced by DSIP and melatonin in pinealectomized and hypophysectomized rats.
YEHUDA, S. and D. I. MOSTOFSKY 495

Cholecystokinin in vivo reduces binding to rat hypothalamic β-adrenergic sites.
KOCHMAN, R. L., T. R. GREY and J. D. HIRSCH 499

Radioautographic localization of somatostatin-14 and somatostatin-28 binding sites in the rat brain.
LEROUX, P. and G. PELLETIER 503

Effect of ACTH 1–17 at different circadian stages on [^{3}H]TdR incorporation into DNA.
SCHEVING, L. E., T. H. TSAI, J. E. PAULY and F. HALBERG 507

Evidence that the effects of arginine-8-vasopressin (AVP) on pituitary corticotropin (ACTH) release are mediated by a novel type of receptor.
ANTONI, F. A., M. C. HOLMES, G. B. MAKARA, M. KÁRTESZI and F. A. LÁSZLÓ 519

Bombesin increases dopamine function in rat brain areas.
WIDERLÖV, E., R. A. MUELLER, G. D. FRYE and G. R. BREESE 523

Blocking of cholecystokinin octapeptide behavioral effects by proglumide.
KATSUURA, G., S. HSIAO and S. ITOH 529

Amastatin potentiates the behavioral effects of vasopressin and oxytocin in mice.
MEISENBERG, G. and W. H. SIMMONS 535

Stimulation of insulin secretion by corticotropin-releasing factor (CRF) in anesthetized rats.
TORRES-ALEMAN, I., M. MASON-GARCIA and A. V. SCHALLY 541

Suppression of feeding by cholecystokinin but not bombesin is attenuated in dorsomedial hypothalamic nuclei lesioned rats.
BELLINGER, L. L. and L. L. BARNARDIS 547

Glucagon-37 (Oxyntomodulin) and Glucagon-29 (pancreatic Glucagon) in human bowel: Analysis by HPLC and radioreceptorassay.
MUNCK, A., A. KERVRAN, J.-C. MARIE, D. BATAILLE and G. ROSSELIN 553

Contents continued

Characterization and distribution of FMRFamide immunoreactivity in the rat central nervous system.
O'DONOHUE, T. L., J. F. BISHOP, B. M. CHRONWALL, J. GROOME and W. H. WATSON, III 563

Histochemical localization of FMRFamide-like immunoreactivity in the rat brain.
CHRONWALL, B. M., J. A. OLSCHOWKA and T. L. O'DONOHUE 569

Presence and distribution of immunoreactive and bioactive FMRFamide-like peptides in the nervous system of the horseshoe crab, *Limulus polyphemus*.
WATSON, W. H., III, J. R. GROOME, B. M. CHRONWALL, J. BISHOP and T. L. O'DONOHUE 585

Co-existence of peptide HI (PHI) and VIP in nerves regulating blood flow and bronchial smooth muscle tone in various mammals including man.
LUNDBERG, J. M., J. FAHRENKRUG, T. HÖKFELT, C.-R. MARTLING, O. LARSSON, K. TATEMOTO and A. ÄNGGÅRD 593

Drinking and feeding inhibition by ICV pulse injection or infusion of bombesin, ranatensin and litorin to rats.
DE CARO, G., M. MASSI, L. G. MICOSSI and M. PERFUMI 607

Somatostatin in epithelial cells of intestinal mucosa is present primarily as somatostatin 28.
BASKIN, D. G. and J. W. ENSINCK 615

Ontogeny of immunoreactive CCK and VIP in pig brain and gut.
ICHIHARA, K., J. ENG, W. G. POND, J. T. YEN, E. STRAUS and R. S. YALOW 623

Characterization of a potent biotin-conjugated CRF analog and the response of anterior pituitary corticotropes.
WESTLUND, K. N., P. C. WYNN, S. CHMIELOWIEC, T. J. COLLINS and G. V. CHILDS 627

Potentiation of foot shock analgesia by thyrotropin releasing hormone.
BUTLER, P. D. and R. J. BODNAR 635

Endogenous benzodiazepine ligands in human cerebrospinal fluid.
DECKERT, J., W. KUHN and H. PRZUNTEK 641

BRIEF COMMUNICATIONS

Endorphins and the central inhibition of urinary bladder motility.
DRAY, A., R. METSCH and T. P. DAVIS 645

Cholecystokinin octa- and tetrapeptide degradation by synaptic membranes. III. Inactivation of CCK-8 by a phosphoramidon-sensitive endopeptidase.
DESCHODT-LANCKMAN, M., D. KOULISCHER, S. PRZEDBORSKI and M. LAUWEREYS 649

Rapid and efficient method for the N-formylation of C-blocked peptides.
LAJOIE, G. and J.-L. KRAUS 653

ANNOUNCEMENTS 655

PEPTIDES

VOLUME 5 NUMBER 4 JULY/AUGUST 1984

CONTENTS

$ACTH_{1-24}$ effects on d-amphetamine self-administration and the dynamics of brain dopamine in rats.
LECCESE, A. P. and W. H. LYNESS 659

Intraventricular calcitonin gene-related peptide inhibits gastric acid secretion.
HUGHES, J. J., A. S. LEVINE, J. E. MORLEY, B. A. GOSNELL and S. E. SILVIS 665

α-MSH and Pro-Leu-G^1y-NH_2 (PLG; MIF-1): Influence on dopamine (DA) uptake in crude synaptosomal preparations from rat mediobasal hypothalamus (MBH) and caudate putamen (CP).
TORRE, E., M. E. CELIS and S. R. CHIOCCHIO 669

Peptidergic regulation of feeding in the dog (*Canis familiaris*).
LEVINE, A. S., C. E. SIEVERT, J. E. MORLEY, B. A. GOSNELL and S. E. SILVIS 675

Quantification of the permeability of the blood-CSF barrier to α-MSH in the rat.
WILSON, J. F., S. ANDERSON, G. SNOOK and K. D. LLEWELLYN 681

Structure-activity studies of dermorphin. The role of side chains of amino acid residues on the biological activity of dermorphin.
DARŁAK, K., Z. GRZONKA, P. KRAŹCIK, P. JANICKI and S. W. GUMUŁKA 687

Intracerbroventricular injection of ostrich β-endorphin to satiated pigeons induces hyperphagia but not hyperdipsia.
DEVICHE, P. and G. SCHEPERS 691

Histamine release by neurotensin in the rat hindquarter: Structure-activity studies.
KEROUAC, R., S. ST-PIERRE and F. RIOUX 695

Thyrotropin releasing hormone (TRH) binding sites in the adult human brain: Localization and characterization.
PARKER, C. R., JR. and A. CAPDEVILA 701

Corticotropin-releasing factor (CRF)-like immunoreactivity in the adrenal medulla.
HASHIMOTO, K., K. MURAKAMI, T. HATTORI, M. NIMI, K. FUJINO and Z. OTA 707

Thermoregulatory (core, surface and metabolic) responses of unrestrained rats to repeated POAH injections of β-endorphin or adrenocorticotropin.
THORNHILL, J. A. and W. S. SAUNDERS 713

The distribution of α-melanocyte stimulating hormone (α-MSH) in the central nervous system of the rat: An immunohistochemical study. II. Lower brain stem.
YAMAZOE, M., S. SHIOSAKA, A. YAGURA, Y. KAWAI, T. SHIBASAKI, N. LING and M. TOHYAMA 721

Contents continued

Ceruletide, ceruletide analogues and cholecystokinin octapeptide (CCK-8): Effects on isolated intestinal preparations and gallbladders of guinea pigs and mice.
ZETLER, G. 729

Autonomic effects of central injections of D-Ala²-Met-enkephalinamide (DAME) in the conscious monkey.
OWEN, M. D., C. V. GISOLFI, D. G. REYNOLDS and N. J. GURLL 737

Potential Anti-depressive effects of thyrotropin releasing hormone (TRH) and its analogues.
OGAWA, N., S. MIZUNO, A. MORI, I. NUKINA, Z. OTA and M. YAMAMOTO 743

Vasopressin analgesia: Specificity of action and non-opioid effects.
KORDOWER, J. H. and R. J .BODNAR 747

Pro-enekphalin gene derived peptides in the porcine stomach: Cellular distribution and molecular forms.
GIRAUD, A., A.-C. JÖNSSON and G. J. DOCKRAY 757

Parallel bioassay of litorin and phyllolitorins on smooth muscle preparations.
FALCONIERI ERSPAMER, G., G. MAZZANTI, G. FARRUGGIA, T. NAKAJIMA and N. YANAIHARA 765

Hydrolysis of substance P and neurotensin by converting enzyme and neutral endopeptidase.
SKIDGEL, R. A., S. ENGELBRECHT, A. R. JOHNSON and E. G. ERDÖS .. 769

Phe-met-arg-phe-amide (FMRF-NH_2) inhibits insulin and somatostatin secretion and anti-FMRF-NH_2 sera detects pancreatic polypeptide cells in the rat islet.
SORENSON, R. L., C. A. SASEK and R. P. ELDE 777

Effects of thyrotropin-releasing hormone (TRH) and MK-771 on behavior of squirrel monkeys controlled by noxious stimuli.
BRADY, L. S. and J. E. BARRETT 783

Enzymes in placental microvilli: Angiotensin I converting enzyme, angiotensinase A, carboxypeptidase, and neutral endopeptidase ("enkephalinase").
JOHNSON, A. R., R. A. SKIDGEL, J. T. GAFFORD and E. G. ERDÖS 789

The influence of the inter-dose time interval on the cardiovascular response to methionine-enkephalin in the conscious dog.
SANDER, G. E. and T. D. GILES 797

Cardiovascular effects produced by injections of thyrotropin-releasing hormone in specific preoptic and hypothalamic nuclei in the rat.
DIZ, D. I. and D. M. JACOBOWITZ 801

Potentiation of the behavioral effects of pentobarbital, chlordiazepoxide and ethanol by thyrotropin-releasing hormone.
WITKIN, J. M., J. SICKLE and J. E. BARRETT 809

Effect of α-MSH 11–13 (lysine-proline-valine) on fever in the rabbit.
RICHARDS, D. B. and J. M. LIPTON 815

Vasopressin analog (DDAVP) improves memory in human males.
BECKWITH, B. E., R. E. TILL and V. SCHNEIDER 819

The pharmacology of endorphin modulation of chick distress vocalization.
VILBERG, T. R., J. PANKSEPP, A. J. KASTIN and D. H. COY 823

Casomorphins reduce separation distress in chicks.
PANKSEPP, J., L. NORMANSELL, S. SIVIY, J. ROSSI, III and A. J. ZOLOVICK 829

BRIEF COMMUNICATIONS

Characteristics of ^{3}H-substance P binding sites in rat brain membranes.
PARK, C. H., V. J. MASSARI, R. QUIRION, Y. TIZABI, C. W. SHULTS and T. L. O'DONOHUE 833

Is vasoactive intestinal polypeptide (VIP) a sleep factor?
DRUCKER-COLÍN, R., J. BERNAL-PEDRAZA, F. FERNÁNDEZ-CANCINO and A. OKSENBERG 837

Regional heterogeneity in the ratio of α-MSH: β-endorphin in rat brain.
MILLINGTON, W. R., G. P. MUELLER and T. L. O'DONOHUE 841

ANNOUNCEMENTS 845

PEPTIDES

VOLUME 5 NUMBER 5 SEPTEMBER/OCTOBER 1984

CONTENTS

Neuropeptidergic inhibitory regulation of Met-enkephalin immunoreactive material release from rat spinal cord *in vitro*.
UZUMAKI, U., S. GOVONI, E. FACCINI, G. PASINETTI, C. MISSALE and M. TRABUCCHI 849

Purification and sequence of a non-opioid peptide derived from ovine proenkephalin: Implications for possible species specific processing.
MICANOVIC, R., W. KRUGGEL, P. RAY and R. V. LEWIS 853

Cyclic hexa-and pentapeptide somatostatin analogues with reduced gastric inhibitory activity.
HIRST, B. H., E. ARILLA, D. H. COY and B. SHAW 857

Effects of calcitonin gene-related peptide on food intake.
KRAHN, D. D., B. A. GOSNELL, A. S. LEVINE and J. E. MORLEY 861

Isolation and sequence analysis of human bombesin-like peptides.
ORLOFF, M. S., J. R. REEVE, JR., C. MILLER BEN-AVRAM, J. E. SHIVELY and J. H. WALSH 865

Modulation of insulin and glucagon secretion from the perfused rat pancreas by the neurohypophysial hormones and by desamino-D-arginine vasopressin (DDAVP).
DUNNING, B. E., J. H. MOLTZ and C. P. FAWCETT 871

Effects of HIS[1] modifications on the ability of vasoactive intestinal peptide to stimulate adenylate cyclase from rat and human tissues.
ROBBERECHT, P., M. WAELBROECK, J. C. CAMUS, P. DE NEEF, D. COY and J. CHRISTOPHE 877

Pro-Leu-Gly-NH_2 and pareptide inhibit the development of tolerance to haloperidol catalepsy in the mouse.
MYCROFT, F. J. and E. T. WEI 883

CCK pathway from supramammillary region to the nucleus anterior ventralis thalami of the young rats.
KIYAMA, H., S. SHIOSAKA, K. TAKAMI, K. TATEISHI, E. HASHIMURA, T. HAMAOKA and M. TOHYAMA 889

The Met-enkephalin analog D-Ala^2-Met-enkephalinamide decreases the adrenocortical response to ACTH in dispersed rat adrenal cells.
GUAZA, C. and J. BORRELL 895

Behavioral effects of thyrotropin releasing hormone in frontal decorticated rats.
KATSUURA, G., K. YOSHIKAWA, S. ITOH and S. HSIAO 899

Biosynthesis, processing and release of pro-opiomelanocortin related peptides in the intermediate lobe of the pituitary gland of the frog (*Rana ridibunda*).
VAUDRY, H., B. G. JENKS and A. P. VAN OVERBEEKE 905

Big form of γ-melanotropin-like immunoreactivity in normal human plasma.
TANAKA, I., Y. NAKAI, K. NAKAO, T. YOSHIMASA, S. OKI and H. IMURA 913

Contents continued

Characterization of neurotensin binding to rat gastric smooth muscle receptor sites.
KITABGI, P., C.-Y. KWAN, J. E. T. FOX and J.-P. VINCENT 917

Cortisol inhibits the ACTH-releasing activity of urotensin I, CRF and sauvagine observed with superfused goldfish pituitary cells.
FRYER, J., K. LEDERIS and J. RIVIER 925

A group of neurons highly reactive for enkephalins in the rat hypothalamus.
KRUKOFF, T. L. and F. R. CALARESU 931

Insulin receptors in rat brain cortex. Kinetic evidence for a receptor subtype in the central nervous system.
GAMMELTOFT, S., P. STAUN-OLSEN, B. OTTESEN and J. FAHRENKRUG 937

Effects of epidermal growth factor on deoxyribonucleic acid synthesis and stomach weight in hypophysectomized adult mice.
SCHEVING, L. A., L. E. SCHEVING, T. H. TSAI, R. LOPEZ and J. E. PAULY 945

Effects of exercise training on brain opioid peptides and serum LH in female rats.
BLAKE, M. J., E. A. STEIN and A. J. VOMACHKA 953

Isolation and characterization of biologically active and inactive cholecystokinin-octapeptides from human brain.
REEVE, J. R., JR., V. E. EYSSELEIN, J. H. WALSH, H. SANKARAN, C. W. DEVENEY, W. W. TOURTELLOTTE, C. MILLER and J. E. SHIVELY 959

Evidence for an endogenous peptide ligand for the phencyclidine receptor.
QUIRION, R., D. A. DiMAGGIO, E. D. FRENCH, P. C. CONTRERAS, J. SHILOACH, C. B. PERT, H. EVERIST, A. PERT and T. L. O'DONOHUE 967

Endogenous opiates: 1983.
OLSON, G. A., R. D. OLSON and A. J. KASTIN 975

Immunohistochemical localization of Met-enkephalin, Met-enkephalin-Arg^6-Gly^7-Leu^8, Met-enkephalin-Arg^6-Phe^7 and Leu-enkephalin in human adrenal medulla and pheochromocytomas.
OSAMURA, R. Y., K. WATANABE, T. YOSHIMASA, K. NAKAO and H. IMURA 993

***In vitro* LH release and cAMP accumulation induced by synthetic GnRH derivatives.**
NIKOLICS, K. and J. SPONA 1001

BRIEF COMMUNICATIONS

HPLC shadowing: Artifacts in peptide characterization monitored by RIA.
FISCHMAN, A. J., A. J. KASTIN and M. V. GRAF 1007

Effects of β-neo-endorphin on behaviors in mice using multi-dimensional behavioral analyses.
UKAI, M. and T. KAMEYAMA 1011

Selective δ-opioid receptor antagonism by ICI 174,864 in the central nervous system.
DRAY, A. and L. NUNAN 1015

Effect of gonadal steroids on hypothalamus and anterior pituitary endo-oligopeptidase B (proline-endopeptidase) activity in castrated female rats.
LÓPEZ-JARAMILLO, P., J. ANTUNES-RODRIGUES and A. C. M. CAMARGO 1017

ANNOUNCEMENTS 1021

PEPTIDES

VOLUME 5 NUMBER 6 NOVEMBER/DECEMBER 1984

CONTENTS

Neuropeptide Y: A potent inducer of consummatory behavior in rats.
LEVINE, A. S. and J. E. MORLEY 1025

α-MSH and coat color changes in the mouse.
THODY, A. J., K. RIDLEY, R. J. CARTER, A. M. LUCAS and S. SHUSTER 1031

Characterization of *in vitro* proteolytic processing of β-endorphin by reversed-phase HPLC.
DAVIS, T. P., H. SCHOEMAKER and A. J. CULLING-BERGLUND 1037

***In Vitro* autoradiographic localization of [^{125}I]-angiotensin II binding sites in the rat and dog kidney.**
GEHLERT, D. R., R. C. SPETH and J. K. WAMSLEY 1043

Differential *in vitro* metabolism of β-endorphin in schizophrenia.
SCHOEMAKER, H. and T. P. DAVIS 1049

The effect of thyrotropin releasing hormone and morphine on gastrointestinal transit.
PILLAI, N. P. and H. N. BHARGAVA 1055

Reduction of amygdaloid kindled seizures by an analog of ACTH/MSH.
GOLDMAN, H. and R. F. BERMAN 1061

Combined effects of vasoactive intestinal peptide and dopamine on adenylate cyclase in prolactin-secreting cells.
OLIVA, D., L. VALLAR, G. GIANNATTASIO, A. SPADA and S. NICOSIA .. 1067

Immunocytochemical localization of growth hormone releasing factor (GHRF)-containing structures in the rat brain using anti-rat GHRF serum.
MERCHENTHALER, I., C. R. THOMAS and A. ARIMURA 1071

Brain and pituitary receptors for corticotropin releasing factor: Localization and differential regulation after adrenalectomy.
WYNN, P. C., R. L. HAUGER, M. C. HOLMES, M. A. MILLAN, K. J. CATT and G. AGUILERA 1077

Purification of [^{125}I]-vasoactive intestinal peptide by reverse-phase HPLC.
PAUL, S., K. WOOD and S. I. SAID 1085

Relationship of alpha MSH-specific neurons to the arcuate opiocortin neuronal system as determined by dual antigen immunocytochemical prodedures.
PIEKUT, D. T. and K. M. KNIGGE 1089

A comparison of the anatomical distribution of substance P and substance P receptors in the rat central nervous system.
SHULTS, C. W., R. QUIRION, B. CHRONWALL, T. N. CHASE and T. L. O'DONOHUE 1097

Intracellular acetylation of desacetyl αMSH in the *Xenopus laevis* neurointermediate lobe.
GOLDMAN, M. E. and Y. P. LOH 1129

Contents continued

Arginine vasotocin and aggression in rats.
BROWN, R. and M. G. KING 1135

Demonstration of high opioid-like activity in isolated peptides from wheat gluten hydrolysates.
HUEBNER, F. R., K. W. LIEBERMAN, R. P. RUBINO and J. S. WALL 1139

Ceruletide acts in the abdomen, not in the brain, to produce satiety.
SMITH, G. P., C. JEROME, P. KULKOSKY and K. J. SIMANSKY 1149

Effects of ES52, an enkephalinase inhibitor, on responses of ventrobasal thalamic neurons in rat.
KAYSER, V., J.-M. BENOIST, M. GAUTRON and G. GUILBAUD 1159

Atrial natriuretic factor (ANF) binding sites in brain and related structures.
QUIRION, R., M. DALPÉ, A. DE LEAN, J. GUTKOWSKA, M. CANTIN and J. GENEST 1167

Characterization and localization of atriopeptin in rat atrium.
TANG, J., H. FEI, C. W. XIE, M. Z. SUEN, J. S. HAN, R. J. WEBBER, D. CHANG and J. K. CHANG 1173

Ultrastructural study of neurotensin immunoreactivity in the superficial laminae of the dorsal horn of the rat.
SEYBOLD, V. S. and B. MALEY 1179

Relative stability of α-melanotropin and related analogues to rat brain homogenates.
AKIYAMA, K., H. I. YAMAMURA, B. C. WILKES, W. L. CODY, V. J. HRUBY, A. M. DE L. CASTRUCCI and M. E. HADLEY 1191

Structural and conformational modifications of α-MSH/ACTH$_{4-10}$ provide melanotropin analogues with highly potent behavioral activities.
HIRSCH, M. D., T. L. O'DONOHUE, R. WILSON, T. K. SAWYER, V. J. HRUBY, M. E. HADLEY, W. L. CODY, J. J. KNITTEL and J. N. CRAWLEY 1197

Purification and sequencing of a rat intestinal 22 amino acid C-terminal CCK fragment.
ENG, J., B.-H. DU, Y.-C. E. PAN, M. CHANG, J. D. HULMES and R. S. YALOW 1203

Dopamine receptor elevation by cholecystokinin.
DUMBRILLE-ROSS, A. and P. SEEMAN 1207

BRIEF COMMUNICATIONS

Circadian rhythm of corticotropin releasing factor-like immunoreactivity in rat hypothalamus.
MOLDOW, R. L. and A. J. FISCHMAN 1213

Neonatal exposure to vasopressin decreases vasopressin binding sites in the adult kidney.
HANDELMANN, G. E. and S. C. SAYSON 1217

Arginine vasotocin delays extinction of a conditioned avoidance behavior in neonatal chicks.
DAVIS, J. L. and R. M. PICO 1221

Regulation of hippocampal corticosterone receptors by a vasopressin analogue.
FELT, B. T., R. M. SAPOLSKY and B. S. McEWEN 1225

INDEX TO VOLUME 5 1229

PEPTIDES

Brain-Endocrine Interaction V
The Schmitt Brain Symposium

Supplement to *Peptides An International Journal*

CONTENTS

Introduction
SCOTT, D. E., W. K. PAULL and J. K. MITCHELL 1

Recent studies on the role of brain peptides in control of anterior pituitary hormone secretion.
McCANN, S. M., M. D. LUMPKIN, H. MIZUNUMA, O. KHORRAM and W. K. SAMSON 3

Strategies for studying opioid peptide regulation at the gene, message and protein levels.
DORES, R. M., H. AKIL and S. J. WATSON 9

The CRF neuron: Immunocytochemical study.
FELLMANN, D., C. BUGNON, J. L. BRESSON, A. GOUGET, J. CARDOT, M. C. CLAVEQUIN, M. HADJIYIASSEMIS 19

Neuropeptides in the hypothalamo-hypophyseal system: Lateral retrochiasmatic area as a common gate for neuronal fibers towards the median eminence.
PALKOVITS, M. 35

Growth hormone releasing factors in the brain and the gut: Chemistry, actions and localization.
ARIMURA, A., M. D. CULLER, K. MATSUMOTO, M. KANDA, Z. ITOH, W. MURPHY, J. E. SHIVELY and M. PALKOVITS 41

Immunohistochemical localization of corticotropin releasing factor (CRF) in the hypothalamus of the squirrel monkey, *Saimiri sciureus*.
PAULL, W. K., C. F. PHELIX, M. COPELAND, P. PALMITER, F. P. GIBBS and C. MIDDLETON 45

Corticotropin releasing factor (CRF)-like immunoreactivity in the rat central nervous system. Extrahypothalamic distribution.
MERCHENTHALER, I. 53

Corticotropin-releasing factor (CRF)-like immunoreactivity in the gastro-entero-pancreatic endocrine system.
PETRUSZ, P., I. MERCHENTHALER, P. ORDRONNEAU, J. L. MADERDRUT, S. VIGH and A. V. SCHALLY 71

Regulatory peptides—The distribution of two newly discovered peptides: PHI and NPY.
POLAK, J. M. and S. R. BLOOM 79

Somatostatin in the brain of the turtle *Testudo hermanni* Gmelin. An immunohistochemical mapping study.
WEINDL, A., J. TRIEPEL and G. KUCHLING 91

Peptidergic regulation in neuroendocrine and autonomic systems.
ELDE, R., V. SEYBOLD, R. L. SORENSON, S. CUMMINGS, V. HOLETS, D. ONSTOTT, C. SASEK, D. E. SCHMECHEL and W. H. OERTEL 101

Morphological survey of neurotensin-like immunoreactive neurons in the hypothalamus.
IBATA, Y., F. KAWAKAMI, K. FUKUI, H. OKAMURA, H. L. OBATA-TSUTO, T. TSUTO and H. TERUBAYASHI 109

Dynamic neuronal-glial interactions in hypothalamus and pituitary: Implications for control of hormone synthesis and release.
HATTON, G. I., L. S. PERLMUTTER, A. K. SALM and C. D. TWEEDLE .. 121

Synaptic input to vasopressin neurons of the paraventricular nucleus (PVN).
SILVERMAN, A.-J. and B. J. OLDFIELD 139

Development of the catecholamine innervation of the supraoptic nucleus in the Brattleboro rat.
SLADEK, J. R., JR., J. FIELDS, C. J. PHELPS and H. KHACHATURIAN .. 151

***In vitro* and *in vivo* studies on development and regeneration of vasopressin neurons.**
SCHAROUN, S. L., D. M. GASH and M. F. D. NOTTER 157

The neuroanatomical and neurovascular organization of normal fetal hypothalamic explants in the third cerebral ventricle of Brattleboro rats with homozygous diabetes insipidus.
SCOTT, D. E., D. SHERMAN, F. P. GIBBS, W. K. PAULL and D. M. GASH 169

The distribution of thyrotropin-releasing hormone (TRH) in the Rhesus monkey spinal cord.
LECHAN, R. M., S. B. SNAPPER, S. JACOBSON and I. M. D. JACKSON .. 185

LHRH neurons and their projections in humans and other mammals: Species comparisons.
KING, J. C. and E. L. P. ANTHONY 195

Quantitative and qualitative effects of ethanol on the LHRH-LH axis of the rat.
DEES, W. L. and G. P. KOZLOWSKI 209

Receptor-mediated binding and uptake of GnRH agonist and antagonist by pituitary cells.
JENNES, L., W. E. STUMPF and P. M. CONN 215

The A-B-C (Allocortex-Brainstem-Core) circuitry of endocrine-autonomic integration and regulation: A proposed hypothesis on the anatomical-functional relationships between estradiol sites of action and peptidergic-aminergic neuronal systems.
STUMPF, W. E. and L. JENNES 221

Axonal projections and peptide content of steroid hormone concentrating neurons.
MORRELL, J. I., M. SCHWANZEL-FUKUDA, S. E. FAHRBACH and D. W. PFAFF 227

Interaction between hypothalamic peptides in a superfused pituitary cell system.
VIGH, S. and A. V. SCHALLY 241

Misleading concepts in the field of brain peptides.
KASTIN, A. J., J. E. ZADINA, W. A. BANKS and M. V. GRAF 249

Implications of neuropeptides in neurological diseases.
SAGAR, S. M., M. F. BEAL, P. E. MARSHALL, D. M. D. LANDIS and J. B. MARTIN 255

The nigrostriatal system and aging.
McNEILL, T. H., L. L. KOEK and J. W. HAYCOCK 263

Neuropeptides in aging and dementia.
JOYNT, R. J. and T. H. McNEILL 269

Summation
SCOTT, D. E. 275
